MMR Chargepipe Kit for BMW 135i 335i N54 E8x E9x 2006-2012

Cena brutto	1 324,99 zł
Cena netto	1 077,23 zł
Numer katalogowy	MMR02-0101

Opis produktu

The MMR high-flow charge pipe kit includes everything you need to improve the performance, reliability and aesthetics of your 135/335 or 1M N54 engine. With increased boost pressure the standard pipework can be prone to splitting or cracking, with the MMR lightweight aluminium replacement pipe you can be assured of reliability even at significantly increased power outputs. The smooth bore pipework improves airflow versus the OE setup and due to preventing any deformation of the hoses under load or vacuum, the MMR charge pipe also improves throttle response and ultimately, power output. Finished in a durable crinkle black finish - contrasted by laser-etched MMR logo detailing, the MMR charge pipe look as good as it fits and perform, is a direct-replacement for the OE pipework and feature a CNC machined hose end for leak-free installation. Also includes a handy 1/8" bung for the easy addition of either methanol, or water injection. WHAT'S IN THE BOX? Replacement high-flow aluminium charge pipe with CNC leak-free connection Silicone coupler hose and two stub hoses Replacement c-clip Jubilee clips o-ring APPLICATIONS Series Model Code Year Variant Engine Codes 1 Series E88/E82 2006 - 2012 135i, 1M N54 3 Series E90/E91/E92/E93 2006 - 2010 335i N54
