MMR Low Temp Thermostat MMR17-0101 for BMW / N54 / N55

Cena brutto	299,99 zł
Cena netto	243,89 zł
Dostępność	Na zamówienie
Numer katalogowy	331552591
Kod producenta	MMR17-0101

Opis produktu

MMR Low temperature oil thermostat for BMW N54 & N55

Control the oil temperature on your BMW N54 or N55 with our MMR Performance low oil temperature thermostat. By maintaining your oil temps between 90c - 110c, this is an essential modification for all high power or hard-driven cars, especially those used on track. Please note: only suitable for models from 2008 onwards

The best way to allow you to maintain your oil temps between 90c - 110c.

Adding power to your engine generates more heat to disperse. Equally, hard driving, particularly in a warmer climate also pushes temperatures higher than optimum. Significantly increased oil temperatures means only one thing: a decrease in the ability for your engine to stay properly lubricated.

In order to properly control the oil temperature on your N54 or N55 engine, fitting the MMR low oil temp thermostat is one of the best ways to allow you to maintain your oil temps between 90c - 110c. It's a much cheaper option than the addition of an expensive oil cooler system!

Machined from aircraft grade T-6061 aluminium before being anodised in the proprietary dark anthracite MMR finish for durability.

This upgrade is a highly recommended, affordable modification for any hard-driven cars used on road or track, or that have an increased power / torque output and are therefore generating more heat than OE car would do.

Product features

- Highly recommended, affordable modification for any hard-driven cars used on track, or that have an increased power.
- Maintain your oil temps between 90c - 110c.
- Anodised in the proprietary dark anthracite MMR finish for durability.
- Machined from aircraft grade T-6061 aluminium.
- Everything you need included in the kit.

Fitting informations

Series	Model Code	Year	Variant	Engine Code
1 Series	F20 / F21 / E88 / E82	2008 - 2019	135i, M135i, M135iX	N54, N55
2 Series	F22 / F23	2015-2019	M235i, M235iX	N55

3 Series	F30 / F31 / E90 / E91 / E92 / E93	2008-201 9	335i, 335xi, 335i, 335iX	N54, N55
4 Series	F32 / F33	2015-201 9	435i, 435iX	N54, N55

Installation of the MMR low oil temperature thermostat is relatively easy into the OE oil thermostat housing found on the N54 and N55 engines. Please note: only suitable for models from 2008 onwards.

Additional information

Please note: only suitable for models from 2008 onwards.
