## MMR Lowering Springs for BMW G81 M3 Touring 2022+

Cena brutto	<b>1 414,99 zł</b>
Cena netto	<b>1 150,40 zł</b>
Numer katalogowy	<b>MMR08-1605</b>

### Opis produktu

The MMR Performance Lowering Springs for the BMW M3 G81 (xDrive) deliver the perfect blend of improved dynamics and enhanced looks, without sacrificing ride quality. The drop in ride height brings the G81 to life making it feel lighter, more direct and with significantly sharper turn-in - cool right? Approx lowered heights: xDrive: 35mm front, 5mm rear The drop in ride-height makes a huge difference to the handling characteristics: by lowering the M3 G10's centre of gravity, it reduces body roll for better dynamics, whilst maintaining the ride quality and comfort of your car. Thanks to the carefully selected progressive spring rates the ride-quality remains unaffected and is actually nicer to drive at slower speeds. But push-on through the corners and the G81 chassis really comes to life, making it feel lighter, more direct and with significantly sharper turn-in. Meanwhile, the car's appearance is transformed. Our development has resulted in the springs providing a drop at the front of approx 35mm whilst the rear sits lower by 5mm. By getting rid of those nasty wheelarch gaps, it'll look just how it should have come from the factory! Go lower or stiffer than these MMR Springs and your car will bounce and crash as the dampers are mismatched to spring-rate, and the springs themselves run out of travel. Finished in MMR Metallic Grey, the Sport Springs are developed to be fully compatible with cars fitted with either static or Adaptive M adaptive dampers. A must-fit for any M3 G81 touring! The MMR Lowering Spring Kit is one of our best-sellers. Little wonder, as they've earned a reputation for delivering the perfect blend of improved handling, enhanced looks, all without sacrificing ride quality. Features Carefully optimised spring rates for improved driving dynamics Designed to be compatible with Adaptive M and static factory dampers Lowers vehicle by approx 35mm front and 5mm rear Powder coated in MMR Metallic Gunmetal Grey for a durable finish Fitment for xDrive Applications Series Model Code Year Variant Engine Codes 3 Series G81 2022+ M3 S58
