Opis produktu

Turbosmart's range of billet oil caps are designed for some of the most popular high-performance engines on the market. But these aren't just ordinary oil caps. At Turbosmart, we don't do ordinary. It's in our DNA to push boundaries and deliver more. That's why we've reimagined the humble oil cap, turning it into a multi-functional powerhouse. Featuring a removable center cap, this oil cap goes beyond just looking great. It offers unmatched versatility with the ability to transform into: A sensor port for accurate crankcase pressure monitoring A breather port to keep your engine venting efficiently An oil return for added functionality in your setup Whether you're fine-tuning your track weapon or optimizing your daily driver, Turbosmart's billet oil caps give you the flexibility and reliability you need. Available in a range of colours and with OE fitment for popular Ford, GM, Mazda, Nissan, Toyota, Subaru and -12AN models there is no reason not to bling up your engine bay today.
