### Opis produktu

**We recommend [servicing](#) your valve every 3 years, or 20,000 miles, whichever comes sooner**

Made from billet aluminium and hand polished in the UK, this recirculating diverter valve dumps the charge-air back into the air intake system keeping external noise to a minimum. This increases both quicker throttle response and higher clamping load to maintain boost pressure more reliably.

#### **In The Box:**

**1 x FMGTIR017 Valve**  
**1 x Forge Sticker**

If you wish to tune this product to fit the needs of your engine, please see the spring tuning kit below.
