Opis produktu

Nitrous Plate System for Ford 4-cyl Ecoboost 2.3L

The Nitrous Express 4 Cylinder Ford Ecoboost Plate System features spraybarless technology for the ultimate in atomization and distribution. The billet plate bolts between the throttle body and intake making installation quick and easy. The solenoids are integrated into the plate for a super clean look. A direct-plug-in Fuel Line Adapter is provided to simplify installation (no need to cut your factory fuel lines).

This system includes:

- Lightning Series integrated nitrous and fuel solenoids
- Longer throttle body bolts
- Braided stainless hoses
- Billet nitrous plate
- Fuel rail adapter
- TPS Autolearn switch (so the nitrous only activates at wide open throttle and automatically turns off when you let your foot off the accelerator.)
- Jetting for 35, 50, 75, 100, 125, and 150hp
- Master arming switch
- Relay
- Relay harness
- All necessary hardware to complete the installation
- Systems with a bottle Include the new billet aluminum Lightning bottle valve and stainless bottle brackets

If you have an aftermarket engine management system that is capable of adding nitrous enrichment fuel and want this system DRY (no fuel components), please contact us
