Opis produktu

Nitrous Plate System for Ford Mustang V6 3.5L / 3.7L Are those pesky v8 owners picking on your v6? If you need a little help beating up on those v8s you are in luck. The Nitrous Express V6 Ford Plate System features spraybarless technology for perfect atomization and distribution. The nitrous plate bolts between the throttle body and intake making the installation quick and very simple. The solenoids are integrated into the plate for a super clean look. A direct-plug-in Fuel Line Adapter is provided to simplify installation (no need to cut your factory fuel lines). This system includes: Billet aluminum nitrous plate with integrated nitrous and fuel solenoids. TPS activated Wide Open Throttle (WOT) switch so the nitrous only activates at wide open throttle and automatically turns off when you let your foot off the accelerator Direct-plug-in Fuel Line Adapter Jetting for 35, 50, 75, 100, 125, and 150 horsepower Stainless braided nitrous line Master arming switch Relay and harness All necessary hardware to complete the installation If you have an aftermarket engine management system that is capable of adding nitrous enrichment fuel and want this system DRY (no fuel components), please contact us Fits 2011-2014 Ford V6 Mustangs with the 3.7L engine and 2010 and up 3.5L Eco boost Truck applications. THE NITRO BOTTLE IS EMPTY! Instructions PDF
