Opis produktu

Nitrous Plate System for Chevrolet Corvette C8 LT2

The Nitrous Express LT2 6.2L C8 Corvette Nitrous Plate System features Spraybarless technology for the ultimate in atomization and distribution. The billet plate bolts between the throttle body and intake making installation quick and easy.

The solenoids are made of billet aluminum and carbon fiber for the ultimate in performance and weight savings! Custom solenoid mounting brackets and custom length lines are included making the installation simple and attractive.

A direct-plug-in Fuel Line Adapter is provided to simplify installation (no need to cut your factory fuel lines).

This system includes:

- Master arming switch
- Wide Open Throttle activation switch
- Custom solenoid mounting brackets
- Stainless braided N2O and fuel lines
- Relay and Relay harness
- Jetting for 50, 75, 100, 150, 200, and 250 horsepower
- All necessary hardware to complete the installation.

*Systems ordered with a nitrous bottle include the new billet aluminum Lightning bottle valve and stainless bottle brackets.

If you have an aftermarket engine management system that is capable of adding nitrous enrichment fuel and want this system DRY (no fuel components), please contact us
