Air Jack 90 Competition Elephant Foot Part # : 590-02-101

Laser-cut high-density foam inserts for up to four complete units

The case is delivered with high-quality, durable, high-density foam inserts for storage and transport of up to four complete elephant feet units. This ensures that the elephant feet don´t get damaged during transport and or storage but also gives you a functional and easy way to manage your vehicle's equipment both in the workshop, trailer, and in the pit lane during track days and races.

Nuke Performance Air Jack 90 Competition air jacks, the low-pressure air jack solution for your motorsports vehicle

The low-pressure air jacks from Nuke Performance let you get the benefits from in-vehicle air jacks without the need for external nitrous tubes and expensive accessories. The Nuke Performance 90 Competition air jacks work with common workshop air compressors and lift 402 kg (886 lb) each at as low as 8 BAR / 120 PSI. For more information about the Nuke Performance Air Jacks, view the assortment of available setups and kits.
