### Opis produktu

**AN Male to AN Male adapters / reducers, available in several sizes, both with the same sized inlet and outlet and conversion adapters with different sized inlet and outlet. Available in AN-6, AN-8, and AN-10.**

Used to splice your AN hose line in between two hose ends. Either to change size or to prevent the need of changing the total length of the already installed hose. Works with all types of fuels, liquids, and air. Made by anodized aluminum, safe for all alcoholic fuels.

**Available in several sizes, choose size when placing an order:**

**AN-6 Male to AN-6 Male :** 700-06-101

**AN-6 Male to AN-8 Male (AN-8 Male to AN-6 Male) :** 700-06-102

**AN-8 Male to AN-8 Male :** 700-06-103

**AN-8 Male to AN-10 Male (AN-10 Male to AN-8 Male) :** 700-06-104

**AN-10 Male to AN-10 Male :** 700-06-105

Available in several sizes, make sure to choose the wanted size when placing an order.

If you wish to change or complement the use of fittings, we recommend that you use our fittings which are designed to withstand high power and excessive wear and in the right combination with the products they were intended for. Nuke Performance offers a wide range of fittings, adapters, hose ends, fuel lines, brackets, and more.
