Opis produktu

Nuke Performance Liquid Filled Mechanical Fuel Pressure Gauge with a 35mm white and black face with red needle for easy and accurate reading.

A high accuracy fuel pressure gauge with 0-100 PSI and 0-7 BAR, easy to read scale. Housed in a chromed body, filled with liquid that helps the needle from the vibrations from the engine, this gauge is of the highest quality and really durable design.

- Reads from 0-100 PSI and 0-7 BAR
- Dual scale black and white design
- Waterproof body and durable glass lens
- E85 Proof - safe for alcoholic fuels
- Nickel-plated 1/8 NPT thread

The pressure gauge is offered with a 0-100 PSI / 0-7 BAR accurate scale and is perfect for monitoring your fuel pressure in your carburettor, TBI and EFI vehicle. The gauge is installed directly to your fuel line with the 1/8" NPT thread attached to the back of the fuel pressure gauge, fits directly to most common FPR's as well as the Nuke Performance fuel pressure regulator range. For universal mount along the fuel line, use the Nuke Performance AN Fuel Line Gauge Adaptor.

Partno: 310-02-101

Manufactured in the US.

Quantity: 1pc

Technical information :

- Nickel plated male 1/8" NPT fitting.
- The scale reads from 0 to 100 PSI and 0 to 7 BAR with +/- 2% accuracy.
- Stainless steel case and bezel.

Measurements :

Thread : 1/8 NPT

Depth : 48 mm

Diameter : 44 mm

Weight : 77 g

* All measurements including the supplied fittings.
