Kod producenta	NP-120-02-110

Opis produktu

Nuke Performance fuel rail for the BMW 8cyl S65 V8 engine, oversized internals, lightweight design, and equipped with our unique injector safety clips.

The BMW 8cyl S65 fuel rail is delivered with brackets for the S65 engine and allows you to go with AN fuel lines and aftermarket injectors for your modern BMW engine.

Lightweight fuel rail that fits **BMW 8cyl S65** engines
To be used with **Bosch EV14L type injectors**
AN-8 ORB threads in both ends enable a high fuel flow
Delivered with brackets for easy mount to the BMW S65 intake
AN-6 ORB side outlet/inlet for optional applications
Safe for all types of fuels, including alcoholic fuels such as E85

The Nuke Performance's newest generation of fuel rails grants an easy fit to your engine with an extremely lightweight design. It uses the unique injector safety clips that fuel rails from Nuke Performance have become famous for, which grants a leakproof seal even during a crash where the fuel rail would get torn out of the intake manifold. This is a new version of our popular S65 fuel rail, but this time with a larger bore and different threads.

Perfect fitment for a BMW 8cyl S65 engine, delivered with the needed hardware to mount to the intake.

The Nuke Performance BMW 8cyl S65 fuel rail is delivered with brackets for the V8 BMW M3 S65 engine.
BMW M3 S65B40 2007-2013

Please be aware that this fuel rail is an updated version of the first generation 3/8 NPT fuel rail from Nuke Performance. This version has a larger bore and uses different threaded fittings than the first generation.

AN-8 ORB main ports and an AN-6 ORB side port, we offer a wide range of fittings and adapters to choose from.

The fuel rails use AN-8 ORB threaded fittings for each end and also offer an additional side port with AN-6 ORB thread. We offer various fittings and our low-profile full-flow banjo fittings for a space-efficient installation.

AN-8 ORB main ports and AN-6 ORB side ports

The fuel rail is delivered with an AN-6 ORB Plug for the side port but the main port fittings are sold as accessories.

AN-8 ORB to AN-6 Male Part # : 700-04-104
AN-8 ORB to AN-8 Male Part # : 700-04-105
AN-8 ORB to AN-10 Male Part # : 700-04-106
AN-8 ORB to AN-6 Male Full Flow Banjo Part # : 710-01-105
AN-8 ORB to AN-8 Male Full Flow Banjo Part # : 710-01-106
AN-8 ORB to AN-10 Male Full Flow Banjo Part # : 710-01-107
AN-8 ORB Plug Part # : 700-04-116
AN-8 ORB to 1/8 NPT Female Adapter Part # : 700-04-129

All Nuke Performance fuel rails use unique Injector Safety Clips that ensure a perfect seal under all conditions.

One distinctive feature of Nuke Performance is its use of injector safety clips, designed to uphold a flawless seal for injectors even under the strain of extreme fuel pressure.

Ensures a safe and secure seal even during extreme fuel demands

Whether during assembly, engine installation or in the unfortunate event of an accident, these clips ensure the injectors remain securely attached to the rail. This design prevents any fuel spillage, even in scenarios where the fuel pump continues to run or there is residual pressure in the fuel system.

Designed, and developed in Sweden, guaranteeing the highest possible finish and quality.

Developed and designed in Sweden, in-house by Nuke Performance. The BMW 8cyl S65 fuel rail is of the highest possible quality and has the same hallmark as all the other lightweight motorsports products from Nuke Performance. The parts from Nuke Performance are co-developed with worldwide motorsports teams, and BMW experts, making sure that functionality and the design meet the absolute highest standards, or even creating a standard of its own.

Order your aftermarket fuel rail today and experience the convenience and safety of our easy-to-install fuel rails.

There is no substitute for the quality of Nuke Performance.
