## Nuke Performance Fuel Rail Front Crossover Hose Kit for GM LS1 LS2 LS3 LS6 L76 L99

Cena brutto	<b>459,00 zł</b>
Cena netto	<b>373,17 zł</b>
Dostępność	<b>Na zamówienie</b>
Numer katalogowy	<b>331574555</b>
Kod producenta	<b>NP-120-10-102</b>

### Opis produktu

Nuke Performance LS engine fuel rail front hose kit for the new Full Flow AN-8 LS fuel rails. Optional AN-8 braided fuel hose crossover hose kit, specifically designed for LS engines. Engineered to pair seamlessly with the Nuke Performance LS fuel rails, part number 120-10-101. Delivered with the needed AN-8 ORB to AN-8 Male adapters Nitrile fuel hose, ideal for gasoline/petrol use 90 Degree AN-8 Full Flow hose ends 40cm (15.75") AN-8 nitrile fuel hose included Easy installation and easy setup when you want to route the fuel line across the front of the engine just as in the OEM fuel system setup. For a returnless installation using the mid inlet of the driver-side intake fuel rail, you will also need to block off the back ports of both fuel rails, this is made with two AN-8 ORB Plugs. AN-8 ORB Plug Part # : 700-04-116 For running E85, we recommend using a PTFE fuel line for maximum durability and compatibility. Avoid using a dead-end system without a return; instead, opt for two separate fuel lines feeding into the fuel rail with individual returns routed to the fuel pressure regulator, positioned after the fuel rails. This ensures optimal performance, fuel flow, and reliability. LS1, LS2, LS3, LS6, L76, L99 fuel rail front crossover hose kit Specifications: For more information about specifications, contact us directly. Specified for LS1, LS2, LS3, LS6, L76, L99 Included fuel hose AN-8 nitrile full flow fuel hose Included hose ends 2x Full Flow AN Hose End Fitting 90 Degree AN-8 Included fuel rail adapters 2x AN-8 ORB to AN-8 Male adapters Fuel hose length 400.00mm (15.75") / each Weight 195.00g (6.88oz) Fuel compatibility Petrol, Gasoline For motorsports use YES Replaces old part # 100-07-204 \* Part # 120-10-102 EAN 7340209501384 \* old generation that is no longer available for purchase LS1, LS2, LS3, LS6, L76, L99 fuel rail front crossover hose kit includes: 2 x Full Flow AN Hose End Fitting 90 Degree AN-8 (part number 830-09-108) 40cm (15.75") AN-8 Full Flow Nitrile fuel hose 2 x AN-8 ORB to AN-8 Male adapters 2 x Heat shrinks
