3/8 NPT to AN-10 Male Part #: 700-04-103

3/8 NPT Banjo to AN-6 Male Part #: 700-03-104

3/8 NPT Banjo to AN-8 Male Part #: 700-03-105

3/8 NPT Banjo to AN-10 Male Part #: 700-03-106

PTFE Thread Seal Tape 12x.0.75mm x10m Part #: 700-05-201

Injector Safety Clips ensures sealing and safety

A Nuke Performance unique feature is the injector safety clips that ensure the injectors maintain a perfect sealing even during extreme fuel pressure usage. Whether during assembly, installation on the engine, or in the unfortunate case of an accident, the injectors will remain solidly to the fuel rail. No fuel is spilled even if the fuel pump continues to run or there is latent pressure in the fuel system. And when running high fuel pressure, the risk of the fuel rail rising from the injector disappears and you do not have to worry about engine fires due to unwanted fuel spray.

Bolt-on solutions including the needed fittings and brackets

This Porsche 6cyl 964/993 Fuel Rails kit comes with all needed brackets for your fuel system installation. The kit comes with sturdy lightweight stainless steel brackets that guarantee a perfect fit against the Porsche intake and preventing any leaks and fuel pressure malfunctions. Make sure to use PTFE thread seal for all NPT fittings.

Made in Sweden, guaranteeing the highest possible quality

The Porsche 6cyl 964/993 Fuel Rails motorsports fuel rail is developed, designed, and manufactured by Nuke Performance for the highest possible quality and with the same hallmark as all the other parts in the lightweight motorsports range.
