Opis produktu

High flow AN-6, AN-8, and AN-10 AN to Barb male adapters for 8, 10, 13, and 16mm hose. Safe for all fuels, including alcoholic fuels such as ethanol. Used to convert AN hose end into a barb male fitting for fuel/oil/water hose. Suits many applications, for example, joining your OEM rubber hose fuel line into your aftermarket AN fuel line which uses AN hose ends. Available in different sizes and options: AN-6 Male to 8mm Male Part # : 700-07-101 AN-6 Male to 10mm Male Part # : 700-07-102 AN-8 Male to 10mm Male Part # : 700-07-103 AN-8 Male to 13mm Male Part # : 700-07-104 AN-10 Male to 10mm Male Part # : 700-07-105 AN-10 Male to 13mm Male Part # : 700-07-106 AN-10 Male to 16mm Male Part # : 700-07-107 If you wish to change or complement the use of fittings of the highest quality, we recommend that you use our fittings which are designed to withstand high power and excessive wear and in the right combination with the products they were intended for. Quantity : 1pc
