Opis produktu

Compact, versatile Y-block with oversized flow and sensor port integration. 3x AN-8 ORB ports and 1x 1/8 NPT sensor port.

An updated take on one of the very first Nuke Performance products, this Y-Block Adapter Fitting features three oversized AN-8 ORB threaded ports, delivering maximum flow and flexibility for demanding motorsport applications.

- **3 x AN-8 ORB** ports for maximum flow
- **1 x 1/8 NPT** port for gauge or sensor application
- Let's you divide or combine two lines into one
- **30° angled dual ports** for compact installs
- Works with **all types of fuels**, as well as oil and coolant

Built to handle high-performance fuel, oil, or coolant routing easily, this compact and lightweight distribution block is a must-have for any custom setup.

Whether you're building a dual-feed fuel system, adding a pressure sensor to your oil line, or creating a clean and efficient fluid split, this Y-block offers the flexibility and flow capacity you need — all with the quality and design you expect from Nuke Performance.

Versatile AN-8 ORB ports - compatible with a wide range of adapters and fittings.

We offer a wide range of interchangeable fittings and adapters, including AN sizes from AN-4 to AN-12, SAE quick-connect fittings for seamless integration with OEM fuel systems, barb fittings for rubber hoses, and much more. The AN-8 ORB standard (available here) provides exceptional versatility, making it ideal for both high-performance fuel systems and motorsports-grade oil applications.
