Dostępność	Na zamówienie
Numer katalogowy	331391045
Kod producenta	MMCLAMP-VS-25

Opis produktu

Mishimoto Stainless Steel V-Band Clamps are some of the strongest and most reliable clamps on the market. Tailored especially for the fabricator, this 2.5 stainless steel V-band clamps provide a rigid and secure connection between intake, intercooler pipes, and exhaust pipes. The V-band design makes assembly and disassembly a breeze, and the included fabrication nut makes mock-up easy. Simply assemble the V-band clamp with the reusable nut, tack-weld your pipes in place and disassemble for final welding. Once you're done welding, assemble the clamp with the provided locking nut and never worry about loosening. The stainless steel construction resists heat and corrosion, while the 360-degree clamp ensures leak-free running. Like all our clamps, this 2.5 stainless-steel V-band clamp is backed by our Mishimoto Lifetime Warranty.
