Onyx™ Series Turbo Shield/Blanket - GEN-3 T3 Shield DEI-10267

Cena brutto	1 809,00 zł
Cena netto	1 470,73 zł
Dostępność	Na zamówienie
Numer katalogowy	331501587
Kod producenta	USA-DEI-10267

Opis produktu

We raised the bar. The most technologically advanced turbo shield ever!

We incorporated all our experience to build the absolute best turbo shield on the market. By developing advanced textiles and diving deep into what is needed to control turbo heat, we developed the GEN-3 Onyx Black Turbo Shield. A Silicone coated Onyx Black outer layer with multiple stainless steel and silica inner layers. Without a doubt the strongest, most heat resistant shield available.

OUTER SHELL

- Coated in silicone to insulate and hold up under extreme conditions.
- Prevents fraying & encases seams to make them over 4 times stronger.

INSULATION LAYER

- Thick layer of silica insulation keep heat in turbo shield and turbo housing.
- Silica has a low thermal conductivity making one of the best insulators.

INNER LAYER

- Stainless steel, glass fiber & silicone adds to insulating and thermal properties.
- Increases seam strength, durability and insulation value.

INNER COVER

- Stainless Steel fabric holds up against the highest temps.
- Will not break down or become brittle with heat.

Size: T3

Color: Black

Kit: with shield and wire only
