Opis produktu

Revolutionise your vehicle's performance with our high-performance intercooler! Get ready for an upgrade that will rev up your engine. Our high performance intercoolers set new standards in terms of performance and cooling capacity. With impressive mesh dimensions of 2 x [300mm x 256mm x 115mm], our intercooler offers a whopping 88% more charge air volume compared to the original intercooler. The special high performance mesh ensures outstanding cooling properties, while the freeform cast aluminium end boxes, developed in CAD, ensure the best possible internal airflow. With an impressive pressure resistance of up to 6 bar (tested), these intercoolers are ready to withstand the toughest demands. The kit also includes 4 matching plastic air guides to ensure optimum airflow to the intercooler. All our intercoolers are equipped with a high-quality anti-corrosion coating, which not only protects against corrosion but also ensures efficient heat dissipation. The result is optimum cooling and a significant increase in performance for your engine. Installation is child's play as the kit is supplied ready to install. You can simply replace your original intercooler with our high-performance intercooler and benefit from the impressive advantages. Quality is our top priority. All our products are subject to strict quality control in order to offer you only the best. And yes, our high-performance intercoolers are also suitable for racing, for those looking for the ultimate driving experience. Put your engine in the fast lane and discover the power of our high performance intercooler. Get it now and experience performance on a new level!
