## Performance Intercooler Kit Wagner Tuning for Porsche 997/2

Cena brutto	<b>6 999,00 zł</b>
Cena netto	<b>5 690,24 zł</b>
Numer katalogowy	<b>WT-200001075</b>

### Opis produktu

Experience the future of intercooling with our Performance High Performance Intercoolers for the Porsche 997 Turbo. Get the most out of your Porsche 997 Turbo by relying on our Performance High Performance Intercoolers. Here's why this upgrade is essential for your vehicle: Our Performance High Performance Intercoolers are designed to deliver more charge air volume. With core dimensions of 355mm x 220mm x 90mm, they offer an impressive 17% more charge air volume compared to factory intercoolers. Our high performance intercooler core's are engineered for premium cooling performance. Whether on the track or on the street, your engine will stay in top shape. The use of cast aluminum in our free-form end boxes minimizes weight without compromising performance. At only 2x 5.7 kg per cooler, vehicle dynamics are not compromised. Thanks to our CAD designed freeform end boxes, internal airflow is maximized. This significantly reduces backpressure compared to the stock radiator. All of our intercoolers feature an anti-corrosion coating that not only extends service life, but also provides excellent heat conduction properties. Our kit is completely ready to install and can be easily replaced with stock intercoolers with minor adjustments to the original air ducts. Silicone hoses are included in the kit. Our performance high performance intercoolers have been tested under extreme conditions up to 6 bar and prove their pressure stability. Perfect for racing enthusiasts. All our products are subject to constant qualitative monitoring to ensure the highest standards. Discover the ultimate performance upgrade for your Porsche 997 Turbo with our performance high performance intercoolers. Visit our website for more information and to order your kit. The performance intercooler upgrade kit for Porsche 911 Turbo (S) 997: Porsche 997 Turbo (2008+) 3,8L; 368KW / 500HP facelift models only.
