Opis produktu

Revolutionary performance upgrade for your Golf II GTI G60 - Our High Performance Intercooler Kit! Experience the ultimate performance upgrade with our high performance intercooler kit, specifically designed for the Golf II GTI G60. Designed for drivers seeking peak performance and unmatched cooling, this kit will take your driving experience to a new level. With impressive mesh dimensions of 550mm x 335mm x 50mm and a volume of 9.2 liters, our intercooler provides a larger flow area for efficient cooling. The performance high-performance mesh used in this kit guarantees outstanding cooling characteristics, even in the most demanding driving situations. What makes our kit special are the thoughtful details. The end boxes of the intercooler are made of high-quality cast aluminum and have been carefully optimized in the CAD system to ensure the best possible airflow. The result? An intercooler with minimal backpressure and maximum performance. Installation is easy to master (Plug & Play). Our kit is specifically designed for easy replacement of the OEM intercooler. Simply remove the old radiator and install our high performance intercooler to immediately reap the benefits of optimally cooled, supercharged air. Why should you choose our kit? Because we focus on quality. All our products, including this high performance intercooler kit, are subject to strict qualitative monitoring. We guarantee not only outstanding performance, but also durability and reliability. Ready to take the performance of your Golf II GTI G60 to the next level? Order our high-performance intercooler kit now and experience the power of optimally cooled air. Your ride, our passion - Together on the road to ultimate performance. All our products are subject to constant qualitative monitoring. Part number 200001021 Kit comes with: 1 intercooler Note: Only fits in vehicles without air conditioning!
