Opis produktu

Plate System with 15Lb Bottle (50-200Hp) for Dodge V6 3.6L

The Nitrous Express Dodge 3.6L Plate System features Phase 3 Spraybarless technology for the ultimate in atomization and distribution. The billet plate bolts between the throttle body and the intake making installation quick and easy. This system includes Lightning series nitrous and fuel solenoids. Also includes is a wide open throttle switch so the nitrous only activates at wide open throttle and automatically turns off when you let your foot off the accelerator. The system includes jetting from 50 to 150 horsepower and can be upgraded to 200 horsepower with additional jets and upgraded hose. Includes 10lb bottle with Lightning 500 valve, braided stainless lines, stainless bottle brackets, four color installation manual, arming switch as well as every nut, bolt and electrical connector needed to complete the installation.

If you have an aftermarket engine management system that is capable of adding nitrous enrichment fuel and want this system DRY (no fuel components), please contact us
