## Pompa paliwa Aeromotive 11124 A1000 Brushless External-Round

Cena brutto	<b>3 799,00 zł</b>
Cena netto	<b>3 088,62 zł</b>
Dostępność	<b>Na zamówienie</b>
Numer katalogowy	<b>331464566</b>
Kod producenta	<b>USA-ARE-11124</b>

### Opis produktu

P/N 11124 A1000 Brushless External Fuel Pump  
A1000 Performance Plus Advanced Technology The A1000 performance you expect and more: Fuel Injected Engines: GAS up to 1300 FWHP - naturally aspirated up to 1000 FWHP - forced air induction Carbureted Engines: GAS up to 1500 FWHP - naturally aspirated up to 1200 FWHP - forced air induction Fuel Injected Engines: E85 up to 910 FWHP - naturally aspirated up to 700 FWHP - forced air induction Carbureted Engines: E85 up to 1050 FWHP - naturally aspirated up to 840 FWHP - forced air induction Lighter than the traditional A1000 pump. Reduced current draw at higher, EFI pressures. Extended service life in methanol and ethanol. Integral, external brushless controller for clean installation, cooler fuel and enhanced reliability. Quieter than the traditional A1000 pump. ORB-10 inlet and outlet ports. Requires straight 12-VDC to 16-VDC power supply. Not compatible with pulse modulated systems or fuel pump speed controllers. Includes 2 ea. P/N 12703 stainless steel t-bolt clamps for mounting. EFI rated flow of 700 lbs./hr. @ 45 psi, 13.5 volts Carb rated flow of 900 lbs./hr. @ 9 psi, 13.5 volts
