Opis produktu

Mishimoto is proud to release a brand new silicone radiator hose kit designed specifically for the EG/EK Honda Civic with K-Series engine swap. This hose kit paired with our K-Series swap radiator is the perfect cooling solution for your boosted or N/A K-Swap. The Mishimoto silicone hose kit is constructed from four layers of high grade silicone and heat resistant embedded fibers to provide efficient heat reduction and increased pressure tolerance. Gone are the days of using hacked together OEM hoses that are prone to failure and create an eyesore in your swapped engine bay. The Mishimoto silicone radiator hose kit includes our signature Lifetime Warranty. Direct fit for 1992-2000 Honda Civic K-Series Swap. INNER DIAMETER: 1.25" OUTER DIAMETER: 1.65" Maximum Temperature: 330°F Constructed with high grade silicone and heat-resistant embedded fibers. Mishimoto Lifetime Warranty
