Opis produktu

This quickshifter, once installed, will allow you to shorten the movement of your gear shift in order to obtain the optimum shifting times required for performance driving. You can personally customise the throw to suit your own preference due to an infinitely adjustable pivot mechanism. Click on the 'fitting guide' tab above, for detailed instructions.

This unit will fit VW/Audi/SEAT/Skoda (VAG) vehicles with the 5 speed transverse gear boxes (2000 onwards) as seen in the 'compatible vehicles' tab above.

This product is supplied with two sizes of pin and one ball fitment, to ensure that it will match the various possible cables found on these vehicles.

This **WILL** also fit the 6 speed 1.4 litre Twincharged engines as found in the Golf Mk5 , Golf Mk6 and Scirocco. On these vehicles it replaces the OEM part No. 1K0 711 046M.

This **WILL NOT** fit vehicles with AGU engine code
