Opis produktu

This stunning Gloss Carbon Fibre Lid upgrade for the RacingLine R600 intake will update any existing R600 Evo with a stunning new look under the hood. A simple replacement for any existing R600 Evo intake lid, simply unscrew the old lid and replace with the beautiful new Carbon replacement. This high-gloss R600 Carbon Fibre Lid upgrade is a great way to update your existing R600 Evo intake with a stunning new look in the engine bay. The quality of the carbon weave and finish on this lid is second to none. This lid comes in a stunning high gloss surface (a sophisticated matte finish is also available). Each lid is carefully hand-laid using pre-preg carbon fibre - which means RacingLine have been able to achieve a smooth internal surface, and a stunning appearance combined with perfect dimensional accuracy & fitment. This is supplied as a replacement lid only - to retrofit to any existing R600 Evo intake. Simply unscrew the old lid and replace with the stunning new Gloss Carbon replacement in minutes.
