Opis produktu

A pair of replacement rotors/discs for RacingLine's Stage 3 Big Brake Kit in 380mm diameter. For RacingLine's Stage 3 Big Brake Kit with 380mm rotor size, this is a pair of replacement rotors/discs. They come as rotors only, without the centre bell/top hat which is reused (or can be ordered separately if required). A set of replacement bolts to remount the new rotors onto the center bell is included. These are the same rotor specification that is supplied with the original kit when new. These rotors are only applicable to this RacingLine Stage 3 380mm Brake Kit.
