Radiator Kit Wagner Tuning for Mercedes Benz AMG GT

Cena brutto	5 607,57 zł
Cena netto	4 559,00 zł
Cena poprzednia	5 767,14 zł
Dostępność	Na zamówienie
Numer katalogowy	331467560
Kod producenta	WT-400001017

Opis produktu

Competition Radiator Kit for Mercedes Benz AMG GT

Mercedes C190 AMG GT 340-390KW/462-530PS (2015-2020)
Mercedes C190 AMG GT S 340-390KW/462-530PS (2015-2020)
Mercedes C190 AMG GT C 410KW/557PS (2017+)
Mercedes C190 AMG GT R 430KW/585PS (2017+)

The 4.0L V8 biturbo engine of the specified AMG GT models is equipped with an indirect charge-air cooling circuit. So the cooling of the charged air is not realized by the ambient air as cooling medium (as usual), but made with its own cooling water circuit. A reduction of the temperature of the cooling water is directly equated with an improved cooling performance of the charged air. This is exactly where the advantages of the WAGNERTUNING upgrade water cooler comes into play. The new developed competition racing core of the WAGNERTUNING high performance water coolers increase the radiator volume of the OEM water coolers by a total of 75 %. The calculated ratio between the inner and outer cooling surface generates a maximum heat transfer and allows at the same time enough air flow for the surrounding components (for example the engine water cooler) for its own heat exchange. The water cooler is equipped with a heat-conductive anti corrosion coating to ensure a lasting cooling effect. The plug & play installation of the system is simple and easy to perform (an installation instruction is included as well).

Dimensions OEM front mounted radiator:

640 mm x 420 mm x 26 mm

V = 7,00 Liter

A = 2688 cm²

Dimensions WT front mounted radiator:

645 mm x 395 mm x 52 mm

V = 12,2 Liter +75%

A = 2546 cm²
