Opis produktu

P/N 13116: Honda Billet Rail Mount Regulator
Fits Factory Honda Fuel Rail and fuel return line

Billet adjustable regulators specifically designed for Honda and Acura engines. Provides fully adjustable base fuel pressure and mounts directly to a factory or aftermarket fuel rail with factory mounting pad.

- Adjustable base pressure from 30-70 PSI.
- Fuel pressure rises on a 1:1 ratio with boost.
- Compatible with gas and ethanol based fuels.
- Connects to the stock fuel rail and return line.
- 1/8′ NPT dedicated gauge/pressure test port.
- Suitable for pumps from stock flow up to A1000.
- This product is not legal for sale or use on emission-controlled vehicles except when used as a direct replacement part matching OEM specifications.
- The same Aeromotive flow and pressure control demanded by top racers and tuners, rolled into a Honda specific, bolt-on package.
