Opis produktu

Upgrade Your Drive with the Revin Short Shifter - Precision Engineered for VW Lupo & Seat Arosa (02M/02J/02Q Gearboxes)
Tired of sloppy, long-throw shifts? Transform your VW Lupo or Seat Arosa with the Revin Short Shifter, delivering a 40% reduction in throw distance for lightning-fast, crisp gear changes. Every shift becomes effortless—just a smooth flick of the wrist. But performance isn't just about speed. The Revin shifter features an innovative self-centering spring, reducing unwanted shifter movement by up to 95%—like the precise action of a rifle bolt. Feel every gear engage with satisfying feedback, keeping you in total control. Dominate the Twisties with Confidence Shorter throw places the shift knob closer to the wheel, minimizing hand movement for quicker reactions. Lockout mechanism for reverse, 5th, and 6th gears prevents accidental shifts, so you stay focused on the road. Whether you're pushing limits on backroads or perfecting daily drives, the Revin Short Shifter turns every shift into an art form—exclusively tuned for VW Lupo & Seat Arosa. Precision. Control. Pure Driving Joy. Knob color: Black
