Kod producenta	RTMG-901-0018

Opis produktu

Our new Blow Off Valve is made of billet anodized aluminum and offers flawless appearance, quality, and durability. The use of the bearing minimizes friction, optimizes the alignment of the piston, and blends in with the smaller subpressure chamber achieving faster and better operation.

The Viton o-rings promise a perfect sealing. The absence of the membrane eliminates the possibility of valve worn, preventing any malfunctions caused by in the blow off valve such as been kept incorrectly permanently open.

The V-band clamp makes mounting an easy process even in the most difficult spots of your engine!

The Blow off Valve is fully serviceable, we provide any spare part!

Benefits of the new ball bearing patent are:

- Minimized friction
- Better piston alignment
- Smaller sub-pressure chamber
- Excellent airtight
- Easy installation with V-Band clamp

The Kit Includes:

- Blow Off Valve 50mm
- V-Band Clamp
- Silicone Hose
- Zip Ties

WARNING!

The Ball Bearing Blow Off Valve is NOT suitable for engines with MAF sensor
