Opis produktu

Introducing our DSG DQ250 MQB Performance Racing Gears - the epitome of power, precision, and track-proven performance. Crafted with the same gears that propel our Seat Ibiza Cupra dragster project to astonishing speeds, these upgrades are designed for drivers who demand the best. Our gears boast a larger module and increased thickness, providing your transmission with the robust foundation needed to handle higher torque levels. Tested and proven on the track, these gears have propelled our Seat Ibiza dragster through the 0-402m sprint in an impressive 7.2 seconds, showcasing their exceptional capabilities. Manufactured from high-quality chromoly and subjected to precision heat processing, these gears are engineered for maximum durability. The chromoly construction ensures strength and resilience, while the heat processing enhances their ability to withstand the rigorous demands of high-performance driving. Key Features: For MQB Platforms ****Track-Proven Performance:**** These gears have proven themselves on the track, powering our Seat Ibiza Cupra dragster project to a remarkable 7.2 seconds in the 0-402m sprint. ****Enhanced Torque Handling:**** With a larger module and increased thickness, these gears provide a solid foundation for your transmission to handle higher torque levels with ease. ****Chromoly Construction:**** Manufactured from high-quality chromoly, these gears are built for strength and durability, ensuring a reliable and long-lasting performance. ****Heat-Processed for Durability:**** Subjected to precision heat processing, these gears are engineered to withstand the intense demands of high-performance driving, delivering maximum durability. Upgrade your driving experience with our DSG DQ250 Performance Racing Gears - the choice of champions, both on and off the track. Elevate your journey and feel the difference of top-tier performance and durability. Suitable for the following DQ250 gearboxes : Golf 7gti Golf 7R ATTENTION : The gears not covered by a warranty because its a racing use product. Minimum lead time is 30 business days.
