Opis produktu

Introducing the enhanced fuel pump system by RTMG Performance, available in three options designed to support 800, 850, and 1000 horsepower applications.

800 HP Kit: This kit features the stock factory fuel pump from VW, complemented by an additional Walbro 450 pump. It provides reliable fuel delivery to support up to 800 horsepower.

850 HP Kit: The 850 horsepower kit includes the stock factory fuel pump along with an extra Walbro 525 pump, ensuring consistent fuel flow for high-performance needs.

1000 HP Kit: For those aiming for the highest performance, the 1000 horsepower kit comes equipped with two Walbro pumps: one 450 and one 525, delivering exceptional fuel supply for up to 1000 horsepower.

All kits include the necessary wiring for electrical installation and come with a controller to ensure seamless integration and optimal performance. The unique design of the RTMG billet adapter allows for a seamless connection between the two fuel pumps, ensuring durability and efficiency.
