### Opis produktu

SAE J2044 9.49 3/8" to AN-8 Male fitting Nuke Performance High flow SAE J2044 to AN Male fittings, with plastic inserts and Viton o-rings, safe for all types of fuels such as ethanol and petrol. Connects to OEM male 5/16 and 3/8 SAE quick connect fuel fittings. These adapters are often used to convert an OEM fuel system, that is using SAE 5/16 (7.89mm), SAE 3/8 (9.49mm) quick connect fittings. Converts fittings into AN-6 / AN-8 Male fittings to use AN fuel lines in your aftermarket fuel system. The plastic inserts are sold as spare parts to be replaced if needed. Available in different versions and sizes: SAE J2044 Ø7.89 5/16" to AN-6 Male fitting Part #: 150-20-401 SAE J2044 Ø9.49 3/8" to AN-6 Male fitting Part #: 150-20-402 SAE J2044 Ø9.49 3/8" to AN-8 Male fitting Part #: 150-20-403 Used on Nuke Performance products: SAE fuel lines, adapters, fittings Fuel pump mounting kits If you wish to change or complement the use of fittings of the highest quality, we recommend that you use our fittings which are designed to withstand high power and excessive wear and in the right combination with the products they were intended for. Available in several sizes, make sure to choose the preferred size when placing an order.
