Opis produktu

The caps come in a set of 4 cap covers, 2 caps per seat and allowing you to add them to both the driver and passenger seat.

With so many T5-T6 enthusiasts re trimming their Transporter seats we decided to add a neat solution to complement your individual interior design, whether just wanting to hide the awful plastic OEM parts or complement your individual retrim the Forge Aluminium seat and lumbar adjuster cap covers are a must for the VW Transporter.

Manufactured from **high quality aircraft T6061 billet aluminium** at our headquarters in Gloucester England then bright anodised to give a stunning contrast and look with a hard-wearing finish.

These caps fit snugly over the OEM adjusters and are held securely in place with a small grub screw. If you are wanting to personalise the internal look of your VW then these will do just that!
