Short Shifter for the Peugeot 308 GTI MK2 (2015-2020)

Cena brutto	652,87 zł
Cena netto	652,87 zł
Dostępność	Na zamówienie
Numer katalogowy	379177331
Kod producenta	FMSS6
Kod EAN	*5056721234717*

Opis produktu

Fitment details for the Peugeot 208 GTI include: Engine Code EP6-CDTX, MC6 Gearbox, THP200 Engine (2014).

The Peugeot 308 GTI is a very capable B - road and track machine, however the driving experience is somewhat let down by the excessively long throw of the gear stick. Forge Motorsport are proud to present FMSS6, the **adjustable short shifter kit for the Peugeot 308 GTI**.

3D scanning and 3D printed prototypes helped to develop the **best solution for this short shifter**. The most important part of the development for a short shifter is to ensure that the shift cables aren't under further deflection than when connected to the OEM. The 3D Scans allowed us to locate the repositioned ball pin along the same plane as the OEM, and then the 3D print helped us to confirm our findings before taking the design to our **in-house machine shop**.

As this is an adjustable short shifter, you can easily change from the OEM shift length to our reduced position with a 16mm spanner. This creates a maximum reduction of **64%** per gear shift. The image below shows the difference between 3rd gear when the shifter is in its stock position and its shortest position.

This reduces shift times along with the chance of selecting the wrong gear, making it the **ideal modification for track day and fast road driving**.

The kit comes **complete with everything you need for installation**, including a supplied billet pin removal tool to help with the removal of the OEM shifter arm and a set of full colour [instructions](#). Fitting can be carried out in around 1.5 hours.
