Opis produktu

FMANC1 – Renault Megane 225 Ancillary breather hoses

This Forge Motorsport set of 5 ancillary breather hoses for the Renault Megane 225 replace the OEM breather hoses you can see on the top of the engine. They are fluoro-lined to prevent oil contamination of the hoses, and are available in a choice of three colours.

- The Forge silicone hoses in this kit have been designed to include an expensive inner liner of modified silicone known as Fluorosilicone.
- This means the hoses are suitable to be used with either modern long-life coolants, Organic Acid Technology coolants (O.A.T.) or air containing oil mist.
- The construction of the hoses has been engineered to exceed that of the OEM fitments, and will enhance any engine bay both technically and aesthetically
- The use of a Fluorosilicone liner ensures that Forge silicone hoses are the clear market leader.
- Lifetime warranty*
