Opis produktu

A set of four silicone boost hoses for the VAG 1.4 TSi Twincharged engine as found in the VW Polo, Audi A1, Seat Ibiza, and Skoda Fabia.

Apart from the stunning looks of these hoses, they will withstand greater temperatures and pressures, and have a longer life span than the original rubber hoses. Hoses are available in blue, black, or red. Please select your choice using the options above.

- The Forge silicone hoses in this kit have been designed to include an expensive inner liner of modified silicone known as Fluorosilicone.
- This means the hoses are suitable to be used with either modern long-life coolants, Organic Acid Technology coolants (O.A.T.) or air containing oil mist.
- The construction of the hoses has been engineered to exceed that of the OEM fitments, and will enhance any engine bay both technically and aesthetically
- The use of a Fluorosilicone liner ensures that Forge silicone hoses are the clear market leader.
- Lifetime warranty*
