Opis produktu

A Silicone Boost Hose with a 25mm spout allowing the connection of a suitable Dump Valve, for the Renault Megane 225/230. This hose is a great addition for those with the FMRMIND - two hose induction hose kit. This hose is available in Red, Blue or Black, simply select in the options below when ordering.

- The Forge silicone hoses in this kit have been designed to include an expensive inner liner of modified silicone known as Fluorosilicone.
- This means the hoses are suitable to be used with either modern long-life coolants, Organic Acid Technology coolants (O.A.T.) or air containing oil mist.
- The construction of the hoses has been engineered to exceed that of the OEM fitments, and will enhance any engine bay both technically and aesthetically
- The use of a Fluorosilicone liner ensures that Forge silicone hoses are the clear market leader.
- Lifetime warranty*
