Opis produktu

A set of three Silicone boost hoses for both the Hyundai Veloster and Kia Cee'd GT 1.6 Turbo. These are made with European silicone for longevity and stunning looks, with layers of fabric reinforcement to add the strength. These hoses not only withstand greater temperatures and pressures compared to the stock hoses, they look absolutely amazing.

- The Forge silicone hoses in this kit have been designed to include an expensive inner liner of modified silicone known as Fluorosilicone.
- This means the hoses are suitable to be used with either modern long-life coolants, Organic Acid Technology coolants (O.A.T.) or air containing oil mist.
- The construction of the hoses has been engineered to exceed that of the OEM fitments, and will enhance any engine bay both technically and aesthetically.
- The use of a Fluorosilicone liner ensures that Forge silicone hoses are the clear market leader.
- Lifetime warranty*
