Opis produktu

A set of four silicone boost hoses complete with alloy couplers for the VAG 1.9TDi VRS engine as fitted to the Seat Ibiza (ASZ Engine code), and Skoda Fabia VRS.

Please note: the "O" ring seals from the original couplers should be re-used on the alloy couplers in this kit.

- The Forge silicone hoses in this kit have been designed to include an expensive inner liner of modified silicone known as Fluorosilicone.
- This means the hoses are suitable to be used with either modern long-life coolants, Organic Acid Technology coolants (O.A.T.) or air containing oil mist.
- The construction of the hoses has been engineered to exceed that of the OEM fitments, and will enhance any engine bay both technically and aesthetically
- The use of a Fluorosilicone liner ensures that Forge silicone hoses are the clear market leader.
- Lifetime warranty*

PLEASE NOTE: THE ORIGINAL O-RINGS/SEALS MUST BE RETAINED FOR USE ON THE FORGE HOSES
