Silicone Carbon Canister Hose Kit for MK5 VW Golf

Cena brutto	276,80 zł
Cena netto	276,80 zł
Dostępność	Na zamówienie
Numer katalogowy	379173137

Opis produktu

A set of 4 silicone hoses for the Volkswagen Mk5 Golf 2 Litre Turbo. The hoses, constructed from the highest grade European silicone and fabric reinforced, can withstand greater temperatures and pressures than the original organic rubber hoses.

All Carbon Canister hoses are lined with a fluorosilicone rubber compound that gives protection against any oil or oil mist that may be present. Oil will degrade and discolour unprotected silicone hoses.

The hoses are available in a choice of red, black, and blue, simply select your choice in the options above when ordering.

- The Forge silicone hoses in this kit have been designed to include an expensive inner liner of modified silicone known as Fluorosilicone.
- This means the hoses are suitable to be used with either modern long-life coolants, Organic Acid Technology coolants (O.A.T.) or air containing oil mist.
- The construction of the hoses has been engineered to exceed that of the OEM fitments, and will enhance any engine bay both technically and aesthetically
- The use of a Fluorosilicone liner ensures that Forge silicone hoses are the clear market leader.
- Lifetime warranty*
