Opis produktu

A set of 8 silicone hoses for the Vauxhall Astra VXR J type.

The hoses, constructed from the highest grade european silicone and fabric reinforced, can withstand greater temperatures and pressures than the original organic rubber hoses. All our coolant hoses are lined with a fluorosilicone rubber compound that gives protection against OAT coolants (extended life coolants using Organic Acid Technology to inhibit corrosion). These coolants will degrade unprotected silicone hoses.

This set of hoses are available in blue, black, or red. Simply select your choice in the options above.

- **The Forge silicone hoses in this kit have been designed to include an expensive inner liner of modified silicone known as Fluorosilicone.**
- **This means the hoses are suitable to be used with either modern long-life coolants, Organic Acid Technology coolants (O.A.T.) or air containing oil mist.**
- **The construction of the hoses has been engineered to exceed that of the OEM fitments, and will enhance any engine bay both technically and aesthetically**
- **The use of a Fluorosilicone liner ensures that Forge silicone hoses are the clear market leader.**
- **Lifetime warranty***

***T&C's apply**
