Opis produktu

A set of Silicone Coolant Hoses for the 2 Litre Mini Cooper S Diesel.

Made from high grade European silicone and with a fabric re-inforcement, these are not only designed to withstand greater temperatures and pressure than the original rubber hoses but they will last longer. With a choice of three colours (please select in the options above) they look amazing.

- The Forge silicone hoses in this kit have been designed to include an expensive inner liner of modified silicone known as Fluorosilicone.
- This means the hoses are suitable to be used with either modern long-life coolants, Organic Acid Technology coolants (O.A.T.) or air containing oil mist.
- The construction of the hoses has been engineered to exceed that of the OEM fitments, and will enhance any engine bay both technically and aesthetically
- The use of a Fluorosilicone liner ensures that Forge silicone hoses are the clear market leader.
- Lifetime warranty*
