Kod producenta	FMKC5R32

Opis produktu

A set of Silicone Coolant hoses for the R32 Mk5 Golf. Being modelled directly from the OEM hoses, these new precision engineered parts are an easy and direct replacement for the factory items, yet offer significantly greater ability to withstand much higher temperatures.

Ideal on a standard car, but absolutely essential on a tuned, track or modified example! Allied to this, their superior woven fabric reinforcement and fluorosilicone internal lining, means that they will last an awful lot longer than the factory ever intended, too.

Three dynamic colours are available.

Manual Gearbox cars only.

- The Forge silicone hoses in this kit have been designed to include an expensive inner liner of modified silicone known as Fluorosilicone.
- This means the hoses are suitable to be used with either modern long-life coolants, Organic Acid Technology coolants (O.A.T.) or air containing oil mist.
- The construction of the hoses has been engineered to exceed that of the OEM fitments, and will enhance any engine bay both technically and aesthetically
- The use of a Fluorosilicone liner ensures that Forge silicone hoses are the clear market leader.
- Lifetime warranty*

Please note that two of the hoses will not fit the DSG models
