Silicone Hoses for the Ford Focus TDDi

Cena brutto	538,82 zł
Cena netto	538,82 zł
Dostępność	Na zamówienie
Numer katalogowy	379173147

Opis produktu

We have received many requests from owners of the Ford Focus 1.8 TDDi for individual hoses from our "Race Parts" selection. The interest was generated by one owner who realised that he could change many of his hoses without the need for a specialist kit and at a fraction of the cost.

The kit we have put together includes our very best Stainless Steel Hose Clamps and has a discounted price compared to buying all the items separately. Please note: Several of the hoses may need trimming with a sharp craft knife for a perfect fit. Please be aware that these hoses were patterned from right hand drive vehicles. Whilst we believe these to be correct for left hand drive vehicles we suggest that you visually check their suitability, as replacement items, with those fitted to your own vehicle, before attempting installation.

- The Forge silicone hoses in this kit have been designed to include an expensive inner liner of modified silicone known as Fluorosilicone.
- This means the hoses are suitable to be used with either modern long-life coolants, Organic Acid Technology coolants (O.A.T.) or air containing oil mist.
- The construction of the hoses has been engineered to exceed that of the OEM fitments, and will enhance any engine bay both technically and aesthetically
- The use of a Fluorosilicone liner ensures that Forge silicone hoses are the clear market leader.
- Lifetime warranty*
