Opis produktu

Silicone Inlet Hoses for Vauxhall Astra GSi, SRi and Vauxhall Zafira GSi.

This is a three hose set which replaces the hose from the airbox to the MAF sensor, the MAF sensor to the crossover pipe, and the crossover pipe to the turbo inlet.

The hoses are available in red, blue, and black, simply select your preference using the options above. If you also wish to have the appropriate hose clamps, please select this using the options above.

Please note this kit will not fit LHD cars.

- The Forge silicone hoses in this kit have been designed to include an expensive inner liner of modified silicone known as Fluorosilicone.
- This means the hoses are suitable to be used with either modern long-life coolants, Organic Acid Technology coolants (O.A.T.) or air containing oil mist.
- The construction of the hoses has been engineered to exceed that of the OEM fitments, and will enhance any engine bay both technically and aesthetically
- The use of a Fluorosilicone liner ensures that Forge silicone hoses are the clear market leader.
- Lifetime warranty*
