Opis produktu

This 4 ply reinforced silicone intake hose for the Renault Megane 225 is supplied with the highest quality stainless steel hose clamps and the small top turbo hose. The internal bore of the hose allows maximum airflow into the turbocharger.

- The Forge silicone hoses in this kit have been designed to include an expensive inner liner of modified silicone known as Fluorosilicone.
- This means the hoses are suitable to be used with either modern long-life coolants, Organic Acid Technology coolants (O.A.T.) or air containing oil mist.
- The construction of the hoses has been engineered to exceed that of the OEM fitments, and will enhance any engine bay both technically and aesthetically
- The use of a Fluorosilicone liner ensures that Forge silicone hoses are the clear market leader.
- Lifetime warranty*
