Dostępność	Na zamówienie
Numer katalogowy	379173169
Kod producenta	FMINDCZT

Opis produktu

A silicon intake hose for the

Mitsubishi Colt CZT, which runs from the airbox to the turbo. Please note that with modifications these can also be fitted to the SMART Brabus ForFour Petrol engine only. Modifications required on a SMART Brabus ForFour. Please see guide provided by www.forfour.co.uk

This can be used in conjunction with our silicon turbo pipes, FMKTCZTA and FMKTCZTB, however it will not be required if you are using the Forge Motorsport hard pipe kit FMHPKCZT.

It is available in a choice of colours, selectable from the options above. Please be aware that these hoses were patterned from right hand drive vehicles. Whilst we believe these to be correct for left hand drive vehicles we suggest that you visually check their suitability, as replacement items, with those fitted to your own vehicle, before attempting installation.

- The Forge silicone hoses in this kit have been designed to include an expensive inner liner of modified silicone known as Fluorosilicone.
- This means the hoses are suitable to be used with either modern long-life coolants, Organic Acid Technology coolants (O.A.T.) or air containing oil mist.
- The construction of the hoses has been engineered to exceed that of the OEM fitments, and will enhance any engine bay both technically and aesthetically
- The use of a Fluorosilicone liner ensures that Forge silicone hoses are the clear market leader.
- Lifetime warranty*
