Numer katalogowy	379173171

Opis produktu

A high performance Silicone Intake Hose for MK3 (6L) Ibiza FR and VW Polo 1.8T. This hose will also fit the MK3 Ibiza Cupra with slight trimming of the hose length. The hose reduces the restrictions found in the OEM hose and improves airflow into the turbocharger. Please be aware that these hoses were patterned from right hand drive vehicles. Whilst we believe these to be correct for left hand drive vehicles we suggest that you visually check their suitability, as replacement items, with those fitted to your own vehicle, before attempting installation.

- The Forge silicone hoses in this kit have been designed to include an expensive inner liner of modified silicone known as Fluorosilicone.
- This means the hoses are suitable to be used with either modern long-life coolants, Organic Acid Technology coolants (O.A.T.) or air containing oil mist.
- The construction of the hoses has been engineered to exceed that of the OEM fitments, and will enhance any engine bay both technically and aesthetically
- The use of a Fluorosilicone liner ensures that Forge silicone hoses are the clear market leader.
- Lifetime warranty*
